It invites and welcomes to membership all worthy persons seventeen years of age or over, who have a sincere interest in numismatics, whether they collect coins, paper money, tokens or medals, whether advanced collectors or only those generally interested in the subject without being collectors. The Association was founded in 1891, and has about 25,000 members from every state in the Union and 62 foreign countries. It was chartered for 50 years by Act of Congress May 9, 1912; renewed in perpetuity by Act of Congress April 10, 1962 and is a mutual organization for the benefit of its members.

All Association members, except Associate, receive the official publication, *The Numismatist*, without cost other than their annual dues. Membership applications should be accompanied by \$11.00 to cover admittance fee and the first year's dues. Succeeding annual dues are \$6.00. Nonmember subscriptions, \$7.50. Single copy, 75¢. ## EAST ASIAN COIN TYPES

By

H. F. BOWKER

The accompanying charts depict the principal types of coins of the East Asian group of countries, the majority being found only in those circulated in China. The drawings outline the shapes only and are not intended to indicate the relative sizes of the coins. For example a type "X" coin may be a half-inch in diameter or five or more inches in diameter. The sequence of the types does not reflect the chronological order of their issue, nor whether or not there are inscriptions on either obverses or reverses.

The only previously published chart known to the compiler is in the pamphlet "Summary of the Catalogue of the Collection of Chinese, Annamese, Japanese and Corean Coins containing specimens of each historical period from before Christ 2255 (*sic*) to the present belonging to A. F. Schepens of the Chinese Imperial Customs Service, (B-698)<sup>1</sup>, Anvers circa 1904," which gives only 15 types. This chart

and catalog, with a few additional specimens listed, was also reprinted in "Catalogue of the Collections of Chinese Exhibits at the Louisiana Purchase Exposition St. Louis, 1904," pages 111 to 118 in which the chart is reduced in size.

The present chart gives 29 types and is not exhaustive, as there are a few different types which have been seen in drawings or other illustrations in books and of which no genuine specimens have yet been seen in over a period of 25 years of examinations of many museums and private collections in America and Asia. These odd shapes are believed, in the absence of reliable evidence to the contrary, to be fanciful varieties not produced for circulation but only to exploit collectors who fancy odd-shaped items for their "odd and curious" collections. [The drawings are by A. A. Remmelts, Amsterdam, The Netherlands]

## University Starts Numismatic Course

Sponsored by the Professional Numismatists Guild, an accredited course in "Numismatics, the Story of Civilization" will be initiated at Roosevelt University in downtown Chicago on September 29, according to Arthur M. Kagin, a past president of PNG. The lecture course, in the Department of Continuing Education, will be held from 7 to 9 p.m. each Wednesday through December 15. Dates for the second quarter will be announced later.

The course may be taken for credit or audited, without any prerequisites in either case. Anyone may enroll whether a student of the university or not, it being anticipated that a substantial number of those enrolling will be adults desiring to further their numismatic knowledge. The course is designed to appeal to both collectors and noncollectors as a liberal arts course rather than being highly technical. Those taking the course for credit will be graded on a term paper based on outside reading and research.

Adm. O. H. Dodson, USN (ret.), will introduce the lecture series with "Let's Make Money," a lecture on the origin of coins. Other lecturers and subjects scheduled include the following: Hans M. F. Schulman, "Ancient Coins"; Nathan N. Eglit, "Medieval and Renaissance Coins"; Prof. John S. Davenport, "Modern European Coins"; Eric P. Newman, "American Colonial Paper Money"; R. S. Yeoman, "Private and Territorial Gold Coins"; Amon G. Carter, Jr., "United States Currency"; John J. Pittman, "Coins as Related to Economics"; Nate S.

Shapero, "Odd and Curious Media of Exchange"; Donald P. Taxay, "History and Development of the U. S. Mint"; Miss Eva B. Adams, "Modern History and Future of the U. S. Mint"; Arthur M. Kagin, "Early United States Coinage"; and Paul S. Kagin, "Modern United States Coinage."

A number of other noted numismatists and educators will aid in conducting this inaugural series of lectures which, it is believed, will be developed into a more integrated program of numismatic education. Arthur M. Kagin is chairman of the group, with Prof. Robert E. O'Brian of the university as coordinator. Among the advisors are Charles E. Kramer, legal; R. Henry and Mrs. Norweb of Cleveland; Louis E. Eliasberg, Sr. of Baltimore; Dr. and Mrs. V. Clain-Stefanelli of Smithsonian Institution; Maurice M. Gould and Walter Breen.

First proposed nearly 5 years ago, the project was presented to the PNG at its 1964 annual meeting, after having been approved by the president of Roosevelt University, and received an enthusiastic reception. Much time was devoted since then to organizing the course, especially by Otto Wirth, Dean of Arts and Sciences; Robert Ahrens, Director of the Continuing Education Division, and his assistant, Lucy Ann Marx; and Rolf A. Weil, president of Roosevelt University.

Anyone interested may obtain a brochure on numismatic lecture series by writing to Roosevelt University, Continuing Education Division, 430 S. Michigan Ave., Chicago, Ill. 60605.

# READING DATES ON MODERN COINS OF ISRAEL

By

CHARLES R. HOSKINS, A.N.A. No. 34115

MANY methods of counting time were used by the ancient Jewish people. The Bible states that the Israelites reckoned dates from the exodus from Egypt. For example, the building of the first temple occurred in the year 480 after the exodus. (Kings I, VII)

During the period of the Jewish kingdoms, dates were based on the year that the current king ascended the throne. For many decades after the destruction of the first temple dates were determined from that event. The Seleucid kingdom was created in 312 B. C. in what is presently known as the Middle East, and the Seleucid era reckoning was introduced and accepted by the Jews. In the middle of the fourth century A. D., Patriarch Hillel II, who lived in Tiberias, gave the Jewish calendar its present form.

Jewish calendar dates are reckoned from the traditional Hebrew date of the creation of the universe, 3760 B. C. In the year 1965 Rosh Hashana, falling on September 27, ushers in the year 5726. In retrospect, in September, 1950, the Jewish year 5711 began. The dates used on the modern coins of Israel are related to the Gregorian calendar in the following manner:

Table I

Jewish Calendar (Anno Mundi, or A. M.)	Gregorian Calendar (Anno Domini, or A. D.)
5709	1948-49
5710	1949-50
5711	1950-51
5712	1951-52
5713	1952-53
5714	1953-54
5715	1954-55
5716	1955-56
5717	1956-57
5718	1957-58
5719	1958-59
5720	1959-60
5721	1960-61
5722	1961-62
5723	1962-63
5724	1963-64
5725	1964-65
5726	1965-66

Rosh Hashana occurs in September or October of each year. Thus the Jewish calendar year A. M. 5724 began

September 19, 1963, and ended September 6, 1964.

It is customary to abbreviate Jewish dates by omitting the millennium, currently 5000. For this reason the current Jewish date A. M. 5725 is condensed to 725 on Israeli coins. This practice has been followed on all Israeli coinage since the establishment of the modern state of Israel.

Each letter of the Hebrew alphabet has a numerical value. These numerical equivalents and the English pronunciation of the alphabet characters are given in the following table:

Table II

א	(Alef)	1
ב	(Bet)	2
ג	(Gimel)	3
ד	(Dalet)	4
ה	(Hay)	5
ו	(Vav)	6
ז	(Zayin)	7
ח	(Khet)	8
ט	(Tet)	9
י	(Yod)	10
כ	(Kaf)	20
ל	(Lamed)	30
מ	(Mem)	40
נ	(Nun)	50
ס	(Samekh)	60
ע	(Ayin)	70
פ	(Pay)	80
צ	(Tsadek)	90
ק	(Kuf)	100
ר	(Resh)	200
ש	(Shin)	300
ת	(Tav)	400

Dates appearing on Israeli coins consist of either three or four letters which are read from right to left. The

first (right-most) letter on all coins issued to date is Tav, representing 400. The next letter to the left is Shin, or 300. The remaining letter or letters in the date indicate the year within the Jewish calendar century.

The following examples will clarify the method of reading Jewish dates. No. 1. An Israeli 100 pruta bears the date-letters Tav Shin Yod Bet (from right to left) on the bottom line of the reverse. These letters have the numerical values of 400, 300, 10 and 2, or 712. This represents the Jewish calendar year A. M. 5712, which is found to be A. D. 1951-52 in Table I. No. 2. A ten agorot coin is dated Tav

Shin Kaf Dalet, or 400, 300, 20 and 4, which total 724. The Jewish year A. M. 5724 is A. D. 1963-64 according to Table I.

Frequently one or two small marks resembling apostrophes appear to the right of the left-most character in the date. These marks are of no significance in determining the dates of Israeli coins.

The author is grateful for help in preparing this brief but significant article, and acknowledges particularly the assistance of Dr. Irving Katz, Temple Beth El, Detroit, and of Rabbi Leonard C. Mishkin, Chicago.

### WHAT'S NEXT?

This is being written as ballots for the election of officers are being received by members. When you read it, the election results will be known and the new board will have held one or two meetings. The Houston convention will be a happy memory to many members, and the "Chicago gang" will be wondering how to do as well or better next year. The items donated to the building fund will have been converted to cash and all will know how much more, if any, is needed. Quite likely we will know definitely where the headquarters is to be located.

So, what lies immediately ahead to be done? The answer, in general and tersely stated, is "plenty."

The new board will be faced with decisions unprecedented in numbers and magnitude. While these burdens rest on the shoulders of the 9 board members, the rest of us can and should help them by exercising patience and by communicating our preferences and wishes to one or more of them. Remember, these 9 are our elected representatives whose duty is to act in our best interest. This, in many cases, means implementing the wishes of the majority of us. To do this they must have expressions from their constituents — us.

We can give them our backing in other quite direct manners. One very immediate and obvious way is in contributing to the building fund. Less than 10% of the membership has done this directly, although others have helped through local clubs. If you are one of the 9 out of 10, send your check or money order promptly to Executive Secretary Don Sherer, payable to the Association.

Another need is increased membership. It is a proved fact that there are nonmember collectors who wait only to be asked to join the A.N.A. We want all serious collectors and students of numismatics to become members, so ask your friends to take the step. Is your local club a corporate member of the A.N.A.? If not, you have the opportunity to do a favor for the Association and for your club's members. Remember, collectors here to stay join the A.N.A.

Help improve the organization that we have rather than pick at its flaws. Take advantage of its services and encourage others to do likewise. Many of the speculators are losing interest, but the true collectors are not. Now is the time to build up the hobby and the organization worthy of representing it.

This is a job that's too big for one person or for the 9 A.N.A. board members, but it can be done easily if each one of the 25,000 plus members will help as best he can. Consider that the mighty flood is but the accumulated effect of little drops of water. Try not to create a mountain single-handed, only to add a small stone on the heap. — GLENN S.

---

**A.N.A. members, especially clubs,** are urged to include their membership numbers when corresponding with officers of the Association.

## CHURCHILL COMMEMORATIVE CROWN

A royal proclamation was made August 3 in Britain laying down the design of the crown piece (five shillings) that is to be issued in honor of the late Sir Winston Churchill. The obverse of the new coin will bear the effigy of Queen Elizabeth with the royal style and titles and the date 1965. The reverse, designed by Oscar Nemon, will bear the effigy of Sir Winston Churchill and the word "Churchill." The Queen's effigy will be the one by Mrs. Gillick which appears on all other denominations of the coinage.

Issue of the crown pieces, which will be legal currency, is expected to begin in October and may continue for some time. This will be the first time that the head of a commoner has been placed on a United Kingdom coin of the realm in addition to that of the sovereign. It is also the first time that the head of a commoner, if Cromwell is excepted, has appeared on the coin of the realm since at least the 12th century.

Nemon's design is derived from the profile of the bust which he did in marble for Queen Elizabeth. The bust, which is at Windsor Castle, shows Sir Winston Churchill wearing his "siren suit."

While commemorative coins are rare in the United Kingdom, the crown piece has been the denomination chosen for the recent special issues. There were striking in 1935 for King George V's jubilee, in 1937 for the coronation of King George VI, in 1951 for the festival of Britain and in 1953 for the coronation of Queen Elizabeth. The first crown, a gold coin, was issued in 1526, the first silver crown in 1551, and the first cupro-nickel crown in 1951.

### Orders from the U. S.

The royal mint has made arrangements to meet orders from the United States through the banking system. The following U. S. banks will accept orders and obtain the crowns from the royal mint through their London offices. Purchasers may place orders with these banks direct or through any other U. S. bank:

American Express Co., Bankers Trust Co. (New York), Chase Manhattan Bank, Chemical Bank New York Trust Co., Continental Illinois National Bank and Trust Co. of Chicago, First National Bank of Boston, First National Bank of Chicago, First National City Bank (New York), Irving Trust Co., Manufacturers Hanover Trust Co., Marine Midland Trust Co., Morgan Guaranty Trust Co., Bank of American National Trust and Saving Association.

## RESTRICTIVE LEGISLATION OPPOSED

Presumably many collectors know of some of the legislation being proposed on Capitol Hill that relates to coinage and coin collecting. The American Numismatic Association is not in favor of promiscuous hoarding or speculating in circulating U. S. coins. It is in favor of measures aimed at preventing melting of our coins and curtailing their exportation as deemed necessary.

However, the A.N.A. does not subscribe to governmental interference with legitimate collecting or transactions between coin dealers and collectors. Portions of Senate bill S 2012 would appear to give the treasury department authority which could be used to restrict many coin collectors, particularly youths and amateurs from which groups come our future numismatists. The A.N.A. Washington Educational Committee has been and still is in close touch with Washington officials on this matter. This applies to Senator Bible's bill S. 2012 and a later and nearly identical bill designated S. 2036.

It is suggested that individual collectors write to their respective senators and congressmen, expressing opposition to any legislation which might hamper collectors in the pursuit of their hobby. — DON SHERER, A.N.A. EXECUTIVE SECRETARY

## COINAGE LAW SIGNED BY PRESIDENT

Preceded by a suitable ceremony, President Johnson signed into law the coinage act of 1965 on July 23. In a speech during the ceremony, the President said, "If anyone has an idea of hoarding our silver coins, let me say this: the treasury has a lot

President Johnson signs The Coinage Act of 1965 in the White House rose garden on July 23. Others shown at the ceremony include, l. to r., Miss Eva Adams, Director of the Mint; Rep. William B. Widnall, N.J.; and Senator John Sparkman, Ala., and Rep. Wright Patman, Tex., holding samples of new coins. Others in photo not identified. (Vince Finnigan photo)

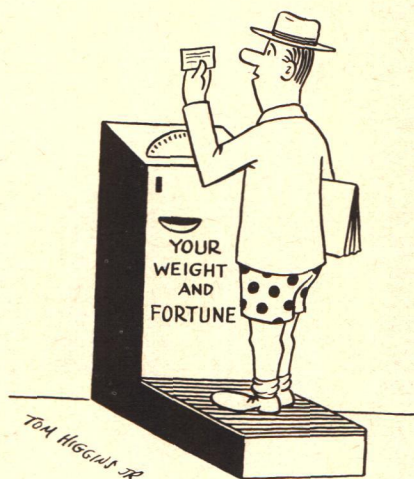

of silver on hand. It can and will be used to keep the price of silver in line with its value in our present silver coins."

The law is substantially as recommended by the President and reported in the July issue of *The Numismatist*. New dimes, quarters and half dollars are to be of the size, weight and composition proposed, with no change in the present 1 and 5 cent pieces. The law provides for all present composition silver coins (900 fine) produced prior to the change-over to be dated 1964, the new composition coins to be dated the year of striking unless the secretary of the treasury directs otherwise to alleviate a coin

shortage. New composition coins may not bear a mint mark during the first five years following passage of the act.

Changes made from the proposed bill include increasing membership in the joint commission on coinage from 14 to 24, all of whom shall be government officials except 8 to be appointed by the President. None of the 8 shall be associated with or represent any group or industry directly interested in the production of coins, thus eliminating recognized coin collectors. Another amendment prohibits the use of coins (except recognized rare ones) as security for loans.

Thus the coinage act of 1965 is now the law of the land. Production of silverless dimes and quarters, and 400 fine half dollars, is to start "quickly," but those of present composition will be produced as necessary until enough of the new ones are available as replacements. Recent treasury department reports indicate that there are at least 10 billion silver dimes, quarters and half dollars "in circulation," which represents quite a replacement job.

"Weight 165 pounds. You are a Numismatist. You are also very absent minded."

## NOTES & QUERIES

### Caracas Anniversary Note

In 1967, Venezuela will issue a 5 bolivar note, ostensibly to commemorate the 400th anniversary of the founding of Caracas, but actually to replace the vanishing 5 bolivar silver crown. Dr. Hector Hurtado, director of national planning for Venezuela, at a press conference mentioned the world-wide shortage of silver.

This shortage, coupled with stringent customs regulations, makes Venezuelan imports of silver virtually nil. Dr. Hurtado cited the cost of minting silver coins—4.80 bolivars to mint a 5 bolivar silver crown. The government feels it cannot accept this cost. With silver imports virtually cut off, jewelers and industrial firms satisfy their needs by melting down the silver crowns. This attrition, coupled with the fact no crowns have been minted since 1936, accounts for the disappearance from circulation of the 5 bolivar silver crown. The new 5 bolivar note will correct this money shortage after 1967.

Dr. Hurtado added that the greatest shortage in everyday business transactions is the centavo (5 centimo piece) and the government has placed an order for 50 million of these fractional coins. The Central Bank no longer supplies 5 bolivar pieces to its customers, substituting 2 bolivar and 1 bolivar pieces to meet payroll requirements, bank transfers, etc. — P. FRANQUET

### 350th Anniversary Celebration

One of the Southwest's oldest settlements, Taos, N. M., is celebrating three and a half centuries this year. Numerous historical pageants, concerts, flower shows and garden tours, art and trade fairs, and other activities were held during the summer. The Kit Carson state park was headquarters for many of the observances, while Indian dances and a rodeo were around the Taos town plaza, the first white settlement in Taos country.

As a keepsake and collector's item, a 1½ inch medal was designed by artist Paul Keith and produced by the anniversary committee. One side depicts the Taos pueblo with appropriate lettering around relative to the occasion. The other side shows the profile heads of a Taos Indian, a conquistadore, and Kit Carson as representative of the area's three cultures. The oxidized bronze pieces are avail-

able at \$1.25 each postpaid from the Taos 350th Anniversary, Inc., P. O. Box 445, Taos, New Mexico 87571. A limited number were struck in silver at \$11.50 each, including tax and postage, but the supply is nearly exhausted.

### Token Information Wanted

Dr. Alan York, A.N.A. 40268, 35 Main St., East Hampton, N. Y. 11937, is attempting to catalog the various medals, medallions, tokens, badges, buttons, insignia, etc., of the temperance, total abstinence and prohibition movements of the United States, Canada, England, Ireland, and all other countries where such items were issued. Collectors having any of these items or knowing the whereabouts of any of them are invited to correspond with Dr. York to make the listing as complete as possible. All assistance will be acknowledged in the listing which will be submitted to *The Numismatist* for publication.

Some of these pieces are cryptic and difficult to decipher. The following are just a few of the abbreviations found: ATA for Army Temperance Assn., RNTS for Royal Naval Temperance Society, WCTU for Women's Christian Temperance Union, UKA for United Kingdom Alliance, IOGT for Independent Order of Good Templars, B of H for Band of Hope, CETS for Church of England Temperance Society, Cold Water Army, etc. Many appear at first glance to resemble Catholic and Protestant religious medals, but closer inspection will find the references to temperance on them.

### 36,000 Proof Sets Missing in the Mails

According to the Omaha *Evening World-Herald* of July 28, 36,086 proof sets of 1964 disappeared in the mails. The newspaper quotes Rep. Glenn Cunningham of Omaha who says he learned of the missing sets while making an inquiry for a constituent who had not received some sets which were to have been delivered in November 1964. When the sets failed to show up by February, the constituent wrote to the Treasury Department and was told that replacements would be sent. However, in June he was informed that so many proof sets were lost in the mails that the supply of replacement sets had been exhausted,

and that his money would be refunded.

The letter from the Treasury Department said, in part, "Although we did retain a stock of 1964 proof sets based on previous years' experience, which under normal conditions would have been more than ample to replace sets lost in the mail, it is regretted that losses have been so heavy that our supply is entirely exhausted . . ." Rep. Cunningham said he understood that the replacement supply had amounted to 20,000 sets.

assemblage of the finest dealers in the area, according to Bourse Chairman Edward Chayet. Admission to the show will be free from opening at 10 a.m. to 6 p.m. General Chairman Phil Hirsh reports that space will be made available without charge to area coin organizations that wish to exhibit or solicit membership. #### Attributing 1864 Cent Varieties

Gentlemen:

In examining the two cent piece of 1864, I have discovered a new way of identifying the two varieties. First, the difference in the two stems is well known. Now look at the leaf directly above the stem. Notice that while on the large motto coin that leaf ends about one-half way down the leaf below it while on the small motto the leaf only extends about one-quarter the length of the leaf below it. — GARY BISHOP

#### Andorra Coins — or Medals?

Hans M. F. Schulman answers the many critics of the Andorra coinage, which some collectors term a private or fantasy issue. He cites the history of Andorra coinage, and the legal reasons for the issue not being recognized as legal tender.

Andorra, once part of Greater Catalonia, today is the only surviving independent remainder of that once important kingdom. Since 1352, Andorra has sold its coinage to private individuals, Schulman says. In that year, Pedro III granted the minting rights on florins to Pere Blau and Joan Pluer, jointly. According to the agreement, Blau and Pluer paid the king "27 sous and 6 diners" for each gold florin minted.

In 1866, a new reason developed for this procedure. Andorra realized it had to keep both France and Spain interested in maintaining Andorra's borders or be swallowed up by one of its powerful neighbors, such as happened to Monaco. Therefore, Schulman states, Andorra granted both France and Spain the privilege of circulating their respective currencies, the peseta and the franc, within Andorra's borders. In the agreement, Andorra promised not to combine these currencies with its own coinage.

As a matter of national pride, Andorra wanted its own national coins. In order to meet Spanish and French currency regulations, a new Andorra

coin was authorized by special legislation, according to Schulman. It immediately became necessary to establish an unofficial rate of exchange: 50 diners were made the equivalent of 600 pesetas, or about \$10. Today, 50 diners are worth a great deal more than \$10. The new Benlloch diners are readily accepted in many Andorra stores at their current market value.

Andorra would like to make these coins legal tender, but her foreign commitments make this impossible. These coins are issued in accordance with the regal, inalienable right of a sovereign state, and the income derived therefrom is part of the government's revenue.

"These coins are struck by hand, and each proof surface is inspected individually. The Andorra government is well aware of the fact these coins will end up in collectors' hands," Schulman relates. "In order to protect the collector, the number of coins is being rigidly controlled, and the dies will be destroyed in the presence of government officials, after the lawful number of coins have been struck.

"There are reasons for the Benlloch coins costing more than the carolus. Minting and metal costs have increased about 70 per cent," says Schulman. "Strict supervision will prevent any get-rich-quick profits at the dealer level. The Benlloch proof set, as this article goes to press, cannot be found anywhere at the issue price of \$50.

"There will be only eight pieces in the series: The Carolus 50 diners of 1960, released last year; the same in 25 diners, not yet released; the Benlloch 50 diners and 25 diners of 1963, just now released; the Napoleon 50 and 25 diners of 1964, to be released later this year; and the parliament building 50 and 25 diners, dated 1965, and expected to be released next year. The obverses symbolize the four most important events in Andorra's history. All issues are extremely small, averaging perhaps about 1,000 pieces."

## YOUR NUMISMATIC INVESTMENT AND THE A.N.A.

Much is written and said today about numismatic investments. On every hand we are urged to buy wisely, study price trends and coin values. Many are speculating on a rise in these values in the near future. All of us with valuable collections trust that when they are sold in the future we will realize at least a modest profit. But in order to sell, there must be buyers!

Where will these buyers come from in the future? Who will buy our coins and collections in years to come? This is a significant and tremendously important question for all collectors. Obviously, we must continue to keep alive today's enthusiasm and interest in collecting and numismatics so as to produce tomorrow's buyers and an active coin market.

For generations A.N.A. has done this job. Through the years it has kindled, cultivated and kept alive interest and enthusiasm in numismatics by bringing youth and new blood into the hobby, transmitting the numismatic heritage to newcomers and stimulating and renewing the interest of collectors everywhere. In this way it has provided buyers to purchase collections when the time comes to sell. This is just one of the many services rendered to collectors by A.N.A.

You can improve and expand this service by making a contribution to the A.N.A. building fund. It is the best investment and finest possible insurance for the future marketability of your coins and collection. By making a better A.N.A., you will help yourself sell your coins at a better price in an active market with more purchasers. If you have not already done so, do it now: mail a check or valuable item from your collection to A.N.A. Executive Secretary Don Sherer, P.O. Box 16243, Phoenix, Ariz. 85011. The total of many contributions will help do the big job of providing future purchasers for your coins and collections. And remember your contribution is tax deductible.

Nor is this just the opinion of the writer. Over 2,000 of your fellow collectors and numismatic firms have

shown their interest and conviction by backing them with cash. An outstanding item in this month's report is the \$525 contributed by the Council of International Numismatics, California. It represents the high bid of Ira Goldberg, Superior Coin Co., Los Angeles, for table no. 1 at the Council's 3rd convention, to be held June 17-19, 1966. John J. Pittman conducted the auction which produced this fine contribution, the highest

amount received to date from the sale of a bourse table. Yes, progressive dealers like Goldberg look to the future and help ensure the expansion of numismatics.

By the way, have you noticed how many collectors outside the 50 states of the Union have contributed to the building fund? According to our count, 46 donors, representing 24 countries, have added \$1,156.65. This money came from Africa, Argentina, Bermuda, Brazil, Canada, Canal Zone, Ecuador, England, Greece, Guam, India, Japan, Lebanon, Malaya, Mexico, Panama, Peru, Philippines, Portugal, Uruguay, U.S.S.R., Venezuela, West Australia, and West Indies. When even these consider the home and headquarters to be a good investment how about you? — CHARLES M. JOHNSON.

## WHAT OTHERS PUBLISH

Hewitt's Numismatic Information Series chalks up another winner with its 72 pp., illustrated *Prisoner of War Monies and Medals* by the talented Arlie Slabaugh. Reprinted from the *Numismatic Scrapbook*, this paper bound book covers issues of prisoner of war camps from the 18th century to the present with emphasis on World War II. Included are many issues never before published. Background data as well as current valuations of available specimens make this work very worthwhile. Available from Hewitt Brothers, 7320 Milwaukee Ave., Chicago, Ill. 60648, at \$1.00 each.

G. Bela Kelemen's 16 page *Commemorative Coins of Hungary* covers a little known subject in commendable fashion. Reprinted from the *Numismatic Scrapbook* of October, 1963, it describes and illustrates 26 issues. Available from the author at P. O. Box 221, Station H, Montreal 25, P. Q., Canada.

The annual report of the director of the mint for 1964 may be obtained for \$1.00. Write the Superintendent of Documents, Government Printing Office, Washington, D. C.

The 1966 edition of "*A Guide Book of United States Coins*," authoritative reference on current market values of American coins, has been released by Whitman Publishing Company, Racine, Wis. This annual volume, known as the "red book," is regarded as the bible of American coins, establishing average retail values used by dealers and collectors throughout the nation. This edition lists and evaluates every American coin type and major variety. Thousands of revaluations are included, reflecting numerous price changes. Early American coins together with rare and choice condition gold pieces show the most dramatic price increases. Many proof coins have doubled in price, while some early U. S. types reflect general increases. Active are Franklin and Standing Liberty halves. Barber coins also show price revisions.

*Viking Coins of the Danelaw and of Dublin* is a recent publication by the British Museum. The silver pennies and halfpennies illustrated in this book are a selection from some 1,000 Anglo-Danish and Anglo-Norse coins, and from just over 250 Hiberno-Norse coins. As far as practicable, the illustrations have been selected so as to give prominence to specimens from the Anglo-Danish and Anglo-Norse series that were not in the English national collection in 1887 when the first two volumes of the British Museum catalog of Anglo-Saxon coins were compiled. Selections for further reading are included. The book has 32 pp. plus 16 plates and is available from British Information Services, 845 3rd Ave., New York 22, N. Y. for \$1.00.

The 3rd edition of Frank G. Spadone's *Major Variety and Oddity Guide of United States Coins*, 114 pp., illustrated, is off the press and priced at \$2.50. It is available from the author, 231 N. 18th St., East Orange, N. J. Coins priced in good, fine, uncirculated conditions. This booklet has much of value in it which should be approached with the inquisitive eye of a research specialist.

*United States, Canadian, and Confederate Paper Money*, fully illustrated with values, retails \$5.00 postpaid from Quaker Currency Co., 3218 "O" St., Washington, D. C. 20007. There have been many revisions in values, almost all of them upwards. Values on Confederate, fractional, and Canadian currency remained more or less stable with the 1962 edition.

H. E. Harris & Co. of Boston, Mass., has recently released the second 1965 edition of the *Harris Premium Guide Book*, price 50c, for appraising and selling U. S. and Canadian coins. This handy guide contains over 150 illustrations of varying quality and gives average prices dealers are paying. The guide also shows quantity minted for each coin. A new feature is the special listing of values paid by dealers for postage and fractional currencies.

## Obituary

### ALFRED B. AUBREY, A.N.A. NO. 231

Alfred B. Aubrey of Meriden, Conn., died in that city at the age of 87 on May 17. Cause of death was heart trouble. Born on April 20, 1878, he retired only a short time ago after 63 years as an attorney and judge.

Judge Aubrey

Judge Aubrey started collecting at the age of 10 when his mother purchased a number of large cents and other coins for him. As a lad of 16, he entered the A.N.A. as number 231 on November 1, 1894. He discontinued numismatic activities during his college years and early law practice and did not resume collecting until the early 1930s, at which time he rejoined the A.N.A. under a new number. Several years later, when it was discovered that Aubrey was one of only two remaining members who joined the A.N.A. prior to the reorganization of 1898, the Association bestowed his original number and proper seniority. He received the 50-year gold membership medal in 1948.

He accumulated a modest collection of United States, early Canadian and ancient coins but, he recently admitted, nothing really rare. He took an active part in local numismatic circles and clubs and was a past president of the Meriden Coin Club. His many numismatic friends, both locally and nationally, mourn the death of Judge Aubrey. — JWO

### JOAO RAMALHO

*Father of Sao Paulo*

Perhaps the earliest and certainly one of the most colorful settlers of

early Brazil was Joao Ramalho. The date of his birth and time of arrival in Brazil are controversial. He was born at Bouzela, Comarca de Vizeu, Portugal. His father was Joao Velho Maldonado; his mother Catarina Affonso Balbode.

Some historians say he was shipwrecked on the Brazilian coast near Sao Paulo. Others say he might have been cast off a Portuguese ship for insubordination or escaped from a ship. Whatever the facts, his fate was more interesting and records of his exploits have survived longer than those of his comrades. He arrived in Brazil sometime between 1490 and 1512.

The native Chief Tebyreca (or Ti-

berica) gave Ramalho, as wife, Princess Potira, the chief's daughter. She was not destined to be his sole wife, nor her children the total of his offspring. That Catarina Fernandes das Vacas was his wife in Portugal counted little.

Ramalho's family and slaves settled at Sante Andre, and he conquered most of the interior of Brazil. When Martim Affonso Da Souza arrived, he was materially aided by Ramalho in handling hostile Indians in the vicinity of Sao Vicente, where Da Souza established Rio de Janeiro.

Ramalho may have been trained as a lawyer — in Brazil he developed many talents. He died in Sao Paulo in 1580. On his death bed he declared he had lived in Brazil 90 years. None disputed his statements, though their authenticity has not been established.

Literally and figuratively he has been called the Father of Sao Paulo.

In 1932, a 500 reis aluminum bronze coin commemorated this early colonist of Brazil. On the obverse was a facing bust, and on the reverse a quilted jacket.

### MARTIM AFFONSO DA SOUZA

*Father of Portuguese Colonization*

Martim Affonso da Souza was born at Braganca, Portugal, in 1502. His

father was Lopo da Souza. Some time before 1521 he married Ana Punentel, daughter of Arias Maldonado.

In 1530, in one of the most ambitious colonization undertakings up to that time, he led a founding party of five ships, 400 men, cattle, and seed to the new lands of Brazil. In this project he had the title of Governador da Nova Luzitania. The early settler, Joao Ramalho, and the native chief, Tiberica, were helpful in the establishment of his colony.

Upon his landing in 1530, Da Souza established a fort at Rio de Janeiro. This was destroyed in January, 1531. The city of Sao Vicente was established January 22, 1532. The city was

named after the patron saint of that day. The sterling qualities of this nobleman, soldier, and statesman were sorely tried in this period, but under his rule began the real history of Brazil. Between 1532 and 1533 he established the first sugar mill in Sao Vicente, in his captaincy. His backers in this colonization project included Italian and Flemish bankers.

Among the adversities of the colony were attacks by French corsairs, violating Brazilian waters, and hostile Indians. It must be said, though, that some of the most helpful aid was rendered by friendly natives. Two famous Indians adopted his name — Martim Affonso de Mello Tybirica and Martim Affonso de Souza Ararygoia.

Visions of the colonizers were not limited to the captaincy alone. The village of Piratininga was organized, later becoming Sao Paulo, and others. There was talk of organizing an expedition against the Inca of Peru — a venturesome task in any age!

About the time Da Souza returned to Portugal, thirteen captaincies or fiefs, had been set up. Each extended along the coast a number of leagues, and inland to the Line of Demarcation. Agriculture and fishing were the leading industries.

Da Souza returned to Portugal in 1533, served as Admiral of the Seas in India, and from 1542 to 1545 as governor of Portuguese India. He died in Lisbon, on July 21, 1564.

In 1932 Brazil issued an aluminum-bronze coin of one milreis, with Da Souza standing, every inch a cavalier with a full beard, cocked hat, and the tights in style in Europe in his day. In the background is worded *IV CENTENARIO DA COLONIZACAO DO BRASIL. 1532-1932*. The reverse shows a coat of arms and the value, 1000 reis. Commemoration of this event, numismatic-wise, was not limited to Da Souza. A whole series of commemorative coins in Brazil appeared in 1932 and subsequent years.

## JOSE ANCHIETA

*Conversion must be the work of fear rather than love.*

José Anchieta was born of noble, wealthy parents on the island of Ten-

erife, Canary Islands, March 9, 1534. His father was Joao de Anchieta, born in Guipuzcoa, Spain, and his mother Mencia Diaz Clavijo Llarena. Mencia was the daughter of Sebastiao de Llarena, a nephew of Don Fernando Llarena, one of the early conquerors of the island of Tenerife.

José was educated at the University of Coimbra in Portugal and entered the Society of Jesus (Jesuits) at 17. He was one of the first missionaries to Brazil, landing there July 13, 1553.

He learned the native language, Tupi, and in 1595 published the first native grammar, *Arte de Gramatica*

*de lingos mais usada no costa do Brasil*. He taught Latin and was on the faculty of a college at Piratininga. One hut served as school, infirmary, dormitory, etc.

Not only was this beloved missionary respected by the Indians and colonists alike, he was popular as a teacher, doctor, songmaster, barber, manual labor director, etc. He spent most of his 44 years in Brazil in the Sao Paulo mission. He was master of Latin, Spanish, and Portuguese. He was a poet and taught dramatic art.

It is said he baptized more than two million Indians in his lifetime. Once he performed these rites 24 hours straight, to the point where two men had to support his arms. He is remembered as a performer of miracles, daring missionary, and holy man. He was believed to have the gift of prophecy and healing properties. The birds and beasts supposedly came at his beckoning.

Once, when the southern colonies in Brazil were threatened with assault

by hostile Tamuin Indians, Anchieta made a truce with them, and gave himself as hostage, as evidence that the truce would be kept. He stayed with them three years, declaring "Conversion must be the work of fear rather than love." He joined Estacio de Sa in an expedition against the French.

Anchieta died in Reritigba (now Anchieta) on June 9, 1597, and was buried at Victoria. Later the remains

were sent to Bahia. He was known as the Apostle of Brazil.

José Anchieta was featured on the coins of Brazil from 1935 to 1938. An aluminum bronze coin of one milreis value, 26 millimeters in diameter, was minted in 1935. The bust of Anchieta faced right, with his name inscribed. On the reverse was portrayed an open Bible, and **BRASIL** and the date. The coins of 1936-38 were reduced somewhat in size.

## PEDRO I

### *Independence or Death*

Brazil always has led the western hemisphere in size and coffee pro-

duction. It also was the first country in the western hemisphere to become an independent empire. It achieved its freedom from European ties about the time most Latin America did, but was another 70 years in becoming a republic. The two leaders of this empire were father and son — Dom Pedro I and Dom Pedro II.

Pedro was born in Castilla of Queluz, near Lisbon, Portugal, on October 12, 1798, the second son of Princess Carlotta Joaquina of Bourbon and Dom Joao IV of Portugal, of the House of Braganza. The infant was christened Dom Pedro de Alcantara Francisco Antonio Joao Carlos Xavier de Paula Miguel Raphael Joaquim José Gonzaga Paschoal Cypriano Seraphim de Bragança e Bourbon.

Pedro was reared in a home where he was almost ignored. When he went to Brazil he was a hail-fellow-well-met type, yet he could be cruel and haughty. He loved life, sensuous pleasures, and had a great thirst for power.

When Napoleon invaded the Iberian peninsula, the Portuguese court fled

to Brazil on January 22, 1808. Dom Joao had to return to Portugal in February of 1821, to settle domestic troubles, and left his son Pedro as regent.

On May 13, 1822, Pedro accepted the title, Perpetual Defender of Brazil. This endeared him to all of his people. Later that year, relations between Portugal and Brazil became very tense. Pedro was on a tour in the province of Sao Paulo when word reached him that war was imminent. He was on the Ypirango river, September 7, 1822. He made his decision immediately. He shouted, "Independence or Death," and Brazil was free. This came to be known as the Cry of Ypirango.

On October 12, 1822, Dom Pedro I was recognized as the constitutional emperor of Brazil, and was crowned December 1, 1822. This action was recognized by a treaty with Portugal signed on August 29, 1825.

He married Mariá Leopoldina de Hapsburg, archduchess of Austria, in 1817. She was the sister of Napoleon's second wife, Marie Louise. Pedro and Mariá had seven children, all born at Paca of Sao Cristovam. Mariá da Gloria became Maria II of Portugal; Miguel and Joaco-Carlos died as babies. Januaria, Paula, Francisca, and Pedro followed. Pedro was born December 2, 1825. His mother died the following year, December 11, 1826, as a result of a miscarriage. At the time Pedro I was in the south, directing the Uruguayan war. Mariá Leopoldina was hefty, ugly, and preferred outdoor activities to things

feminine. She had a warm interest in her subjects which made them like her better than they did Pedro I.

Perhaps the most scandalous affair of the empire was the liaison of Pedro I and his mistress, Senhora Domitilla de Castro Canto e Mello, the Marquessa de Santos. They had two daughters; the elder was the duchess of Goyaz and the younger disappeared at an early age. The populace was so enraged at the conduct of Pedro I that Domitilla was banished from Rio de Janeiro.

Pedro's second marriage was to Princess Augusta Amelia of Leuchtenberg, in October, 1829. His second bride was only 17 years old at the time of their marriage, but soon became a favorite of her adopted countrymen. Their only child was Mariá-Amelia, born in 1831.

Pedro never was a true Brazilian and found it hard to give up his love for Portugal. He had many shortcomings, as well as many noble features. He often was torn between autocratic and constitutional impulses. Things went from bad to worse in his reign — foreign troubles and domestic conflicts. He abdicated on April 7, 1831. He left his son, Pedro II, in Brazil to succeed him. Upon his departure, he said to his son, "Pedro, Brazil will, I fear, ere long, separate herself from Portugal; and if so, place the crown on thine head, rather than allow it to fall into the hands of any adventurer."

Joao IV, the father of Pedro I, died in Portugal in 1826. After Pedro left Brazil, he took the title of Duke of Bragança. His brother, Dom Miguel, usurped the Portuguese throne. Pedro spent the rest of his life fighting him. In 1834 he succeeded in obtaining aid from England and France, and after a brief war, Miguel retired from Portugal. He went to

Germany, where he died in 1866. Donna Mariá da Gloria, daughter of Pedro I, born in Brazil, was crowned Maria II on September 20, 1834, at the age of 15. Mariá had a son, Augusto de Leuchtenberg, the Duke of Santa Cruz — a Brazilian title.

Pedro I died on September 24, 1834, in Lisbon, at the age of 36, four days after his daughter ascended the throne. His death was the result of illness incurred during the battle of Oporto, while fighting Miguel, when they were in a state of siege most of 1833, suffering from hunger and cholera.

The portrait of Pedro I appeared on aluminum bronze coins in 1922 in Brazil. The one milreis and 500 reis coins showed the conjoined busts of Dom Pedro I and President Pessoa facing left on the occasion of the centennial of independence. An error in each of these coins reads BBASIL instead of BRASIL, in some issues.

Two gold types appeared during the reign of Pedro I. In 1822 a 6400 reis coin was struck with a laureated bust facing left. The obverse inscription reads PETRUS I D. G. BRASILIAE IMPERATOR, with the date and mint mark, R, for Rio. Though only 10 of these are known to exist, 64 were minted.

The second type showed Pedro facing left in an admiral's uniform. The obverse inscription reads PETRUS I D. G. CONST IMP ET PERP BRAS DEF, with the date and mint mark. The reverse reads IN HOC SIGNO VINCES, with the imperial arms and value. Mints, dates, and denominations were as follows:

#### Rio de Janeiro

6400 reis	1823-1830
4000 reis	1823-1827

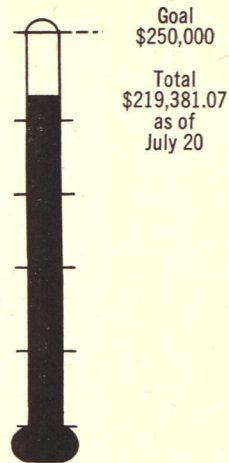

#### Bahia

6400 reis	1825-1828
4000 reis	1825-1828

## AN UNPUBLISHED DOLLAR OF ANHWEI

A few months ago, while cataloging an important collection of Chinese coins, I came across a unique and apparently unrecorded dollar of Anhwei, dated 1897 (23rd year of the Emperor Kuang Hsü). Here is the description:

Obv.: The imperial dragon, surrounded by clouds. Above: AN-HWEI PROVINCE, below: 7 MACE AND 2 CANDAREENS.

Rev.: Four Chinese and four Manchu characters in the center meaning "Kuang Hsü valuable coin"; in the corners the four initials A. S. T. C. In the outer circle a Chinese legend meaning "in the 23rd year of Kuang Hsü made in Anhwei province" and "treasury scales seven mace and two candareens."

Reeded edge. The coin is in almost mint condition.

The standard work on Chinese coins,

*Illustrated Catalog of Chinese Coins* by E. Kann, does not list this piece at all. To Kann the only known dollars of Anhwei are those issued in 1897 (undated) and 1898 (year 24, three types). The only dated coin of 1897 that Kann lists is a 20 cent piece (K. 52 i). He adds the following comment: "Only in 1947 was a hitherto unknown issue of Anhwei 20-cents, dated 23rd year of Kuang Hsü, discovered in a Shanghai collection; as such it is unique. Whether other denominations of this series, namely with 4 initials in the center A S T C, are extant or not, cannot be stated yet."

The existence of this dollar proves Kann's theory to be true. This is an almost sensational discovery in the field of Chinese numismatics. — JEAN-PAUL DIVO

# TOUR OF EUROPEAN MINTS

By

MATT H. ROTHERT, LM 219

My family and I have just returned from Europe, where we visited 10 countries and toured the mints in five.

The first mint we visited is in Rome. Ariberto Guarino is the director, G. M. Monassi, the chief engraver; Pollastri Paolo, chief engineer, and Adolfo Ramella, our interpreter, welcomed us in the director's office.

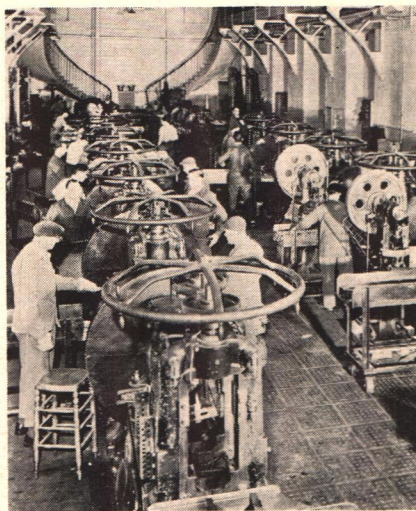

We went through the mint from top to bottom. In the engraving school, operated in connection with the mint, and the only school of its kind in the world, we met Miss Elizabeth Jones, a very fine student, who was returning to the United States shortly. The school occupies almost an entire floor. Each engraver has his own private office, or studio. The ingot heating rooms, the rolling room, and the stamping rooms have some new equipment, but most of it is regular run-of-the-mint machinery. We were shown a press used by Clement XII about 1650. In Rome the mint is called La Zecca.

We next visited the mint in Munich, West Germany. As none of the officials speak English, I obtained the services of an interpreter from the United States consulate. Hans Kellerman, the director, advised us we would not be permitted to take pictures inside the mint, but we were able to buy postcards showing the courtyard. This mint contains 15 stamping machines. There are 65 stamping machines in West Germany's four mints. We were shown through the stamping room only, as they have no planned tours and it is against government policy to show visitors any part of the mint.

In Copenhagen we met Molich-Petersen, civil engineer of Denmark's royal mint, but we did not meet the director, A. K. F. Christensen. This mint has 11 stamping machines. Molich-Petersen told us they buy some bronze bars from West Germany, but have three furnaces in the mint for making their own bars. The Danes issue no silver coins. The 5 kroner piece, their largest coin, contains 75 percent copper and 25 percent nickel. The 5 ore, their small coin, is bronze. Their paper money is made at the Danish National Bank of Copenhagen. The Copenhagen mint employs 128

persons, some of them engravers, but we did not meet any engravers. A few departments work two shifts. As in Germany, they check coins by weight in bags, and also run coins through counting machines similar to those used in American banks.

In London, G. P. Dyer, the librarian, conducted us through the royal mint, employing about 1,000 persons—800

In Paris Mint

in production and 200 in administration. In 1964 the London mint produced 1 billion 44 million coins for 30 countries, in almost 100 denominations. This mint produced the Ghana series engraved by our good friend, Paul Vincze. The mint produces coins for only a few countries outside the commonwealth, among them being Iceland, the Philippines, Panama, and Uruguay. The London mint is compelled to work a night shift, and all production employees put in six hours overtime each week. In the last year the London mint has installed 20 new Hordein, Mason & Edwards presses, giving the mint more than 50 presses. They were stamping 180 shillings per minute when we went through the mint. We also saw the Waterloo medal in hard rubber, which took the artist 30 years to complete.

In Paris we met Pierre Dehayé, director general of the mint. We also met the mint's chief engraver, Raymond Joly, who directs eight other engravers. Le Club Français de la Médaille, with offices in the mint building, publishes a magazine quar-

terly. The Paris mint employs about 800 persons. It makes coins for African and South American nations, as well as the French coins. M. Lapassade, the sub-director, said France is planning a new mint in Bordeaux within three or four years.

## New Coin Metal Strip Contracts Announced

The treasury in July announced the signing of procurement contracts expected to permit production of the new dimes and quarters, authorized in the coinage act of 1965, to begin immediately. The contracts were the first three of a group of contracts for the material required for production of the new dimes and quarters. The new coins will be issued late this year and early in 1966.

The new dimes and quarters will have faces of the same copper-nickel alloy used in the current five cent piece, bonded to a core of pure copper. They will be manufactured from strips of the three layers of metal, bonded together and rolled to the required thickness.

Mint Director Eva Adams said:

"We are announcing today the signing of the first of several planned contracts with suppliers for the composite metal strip required for the new dimes and quarters. Negotiations are underway with other potential suppliers of cupronickel clad strip and also for supply of the silver-copper alloy strip required for the new half dollar.

"The mint expects to get into production of the new 25 cent piece before the end of next week. This quick start was made possible by advance contingency planning, and by advance preparations undertaken at their own risk by potential suppliers.

"We intend to make some 3½ billion pieces of the new subsidiary coinage in the first year of production, and double that amount, if needed, in the second year. We will begin with the new quarter, and follow with the new dime and half dollar.

"Both the Philadelphia and Denver mints will produce the new dimes and quarters, but the new half dollar will be made initially at Denver. The San Francisco mint facilities will be used in the beginning for 1c and 5c pieces. This will release much of the Denver and Philadelphia equipment for production of the new coins while still continuing the production of current silver coins at the existing high rates of output. All mint coinage facilities will continue on a 24 hour a day basis.

"Full production of the current silver coinage will continue meanwhile, until the new coins become available in sufficient quantities to meet all demands. We have some 12 billion silver coins in circulation now and we will add to that amount during the coming year. The silver coinage will continue to circulate, side by side with the new coinage indefinitely into the future.

"We plan to place the new quarter in circulation late this year, and the new dime before mid-1966. Plans for the new half dollar, which will be 40 percent silver, are not yet complete, but output will begin at the Denver mint as soon as supplies of silver clad strip become available. Until the secretary of the treasury determines that supplies of the new coins are adequate, none will bear mint marks."

Miss Adams announced signing of the following contracts:

An initial contract with Metals and Controls, Inc., Attleboro, Mass., a subsidiary of Texas Instruments, Inc. of Dallas, Texas, approximately \$30 million, for production at Attleboro.

An initial contract with E. I. du Pont de Nemours and Company, of Wilmington, Del., approximately \$3 million, for production primarily at Pompton Lakes, N. J.

An initial contract with the Olin Mathieson Company of East Alton, Ill., approximately \$9 million for production at East Alton.

When facilities for producing clad metal strip at the new mint to be built at Philadelphia come into being in 1968, clad strip required for the new coins will be produced there. Facilities for production of clad strip are also planned for the present Denver mint. Procurement of strip outside the mint will continue until the necessary equipment becomes available.

The contracts will provide the mint with about 85 million pounds of cupronickel-on-copper strip. Average costs of cladding the metal strip procured under these and other contracts under negotiation will fall within the range of 40c to 70c per pound estimated by the treasury.

The Casa de Moneda of Brazil will soon put in circulation new 10, 20, 50, 100 and 200 cruzeiro coins.

At a June meeting of the **Harlingen Coin Club**, A.N.A. 48475, Hicks Prescott presented an interesting and enlightening program on "Mint Errors." Among the pieces he described in detail were the 1922 plain Lincoln cent and the 1945 micro S mercury dime. The members voted to contribute \$50 to the A.N.A. building fund and also \$10 to the United Coin Collectors Alliance. They agreed to write to their Senators and Congressmen in protest of the Senator Bible bill. President Robert Clayton appointed Mrs. Doris V. Drachenberg to replace Mrs. Wally Gilmore as A.N.A. Club Representative, Mrs. Gilmore having resigned for reasons of health. We welcome visitors to our meetings the 1st and 3rd Mondays monthly at the C.P.L. Bldg. in Harlingen, Texas. — DORIS V. The **Pueblo Coin Club**, A.N.A. 53949, was host to the 7th annual Southern Colorado Coin Convention, held June 4-6 at the Continental Pueblo Hotel. While a most successful convention was reported, the overshadowing event was formation of a new regional organization named **Southern Colorado Numismatic Association**, A.N.A. 55494. Launched officially at a breakfast meeting on June 6, the new group's charter members elected the following officers: President Al Overton, Vice President Henry Stark,

Charter members of SCNA who attended the organizational meeting in Pueblo on June 6. At extreme left is Al Overton, chairman of the convention and elected president of SCNA.

Secretary-Treasurer Herman Boraker, and Directors Leroy Bennett, Leonard Campbell, Royal Harshman, George Middle and Tom Nidey. The officers were inducted by A.N.A. Governor Ralph F. Cleaver. Nearly 1,000 visitors signed the convention register during the three busy days. — DICK HYDE, Sr.

For the 5th, year the **Zebulon Pike Coin Club**, A.N.A. 36988, started its club year off by donating ten new edition "Redbooks" to the Colorado Springs Public Library. All branches of the library make these popular coin books available to the public. Officers elected for the

new year include President William Thomas, Vice Presidents George Middle and Harry Wolf, Secretary Stan Brunk, and Treasurer Leonard Campbell. We invite visitors to the Pikes Peak region to attend our meetings in the IBEW Hall the 2nd Sunday at 2:30 p.m. and the 4th Wednesday at 7:30 p.m. each month. At the June 24 meeting of the **Odessa Coin Club**, A.N.A. 35638, the 70 members present in the First National Bank Bldg. heard President Louis Goodwin announce that our club won honorable mention in Class A. He read letters from NCW Chairman Lois Otis and Margo Russell of *Coin World*, and said that we have every right to be proud of this showing in the Club's first participation. Announcement was made that the Club has purchased 20 of the A.N.A. style cases for use at our shows, the next one being the 2nd weekend in November. Ashley Lawson told us about the Bible Bill and how we can show our disapproval of it. Ken Allen gave a demonstration and talk on a metal detector which has been used successfully in locating a few old silver dollars. — MRS. S. B. WIGHT JR., Sec.

The history of the **Santa Barbara Coin Club**, A.N.A. 29611, from its beginning in April 1956 to the present was on review at the June 21 meeting when Historian Otto Christensen displayed the 3 well filled scrapbooks. Started by the late Herbert H. Seidler, the books contain news clippings, pictures and other memorabilia. The Club has been host to 2 **California State Numismatic Association** conventions and has held 7 annual shows of its own in its 9 years. It has sown many fine numismatic seeds in the community and area as evidenced by the large number of genuine coin collectors who first became interested in the hobby as a result of one or more of the Club's activities. Ruth Wukasch displayed types of U. S. coins from cents to silver dollars in plastic holders, while L. L. Brown displayed a number of vecturist tokens. John M. Sullivan Jr. spoke briefly on his recent visit to the Denver Mint, advising members of the visiting hours and regulations. — GWEN SENTIS, Sec.

Vacation time did not dull interest in the June 25 meeting of **Monterey Park Coin Club**, A.N.A. 25300. R. B. Carter spoke before 100 members and guests on "The Story of Transportation," using color slides to show kinds of transportation from the ox cart to the monorail at Disneyland. Many different and unusual tokens from numerous states and countries were displayed to give an idea of the progress of transportation. Besides this, Carter won the display trophy of the month with his unusual showing of

love tokens made of coins and mounted in various ways. Carter's talks and displays have done much to further coin collecting as a hobby and his efforts have started many a new collector. A Barber medal displayed by Paul Schymos won 1st prize for him, while 2nd went to Steven Garaza for his exhibit of mis-struck coins. A. H. Barry and Dr. Wm. Freedman won honorable mention. — VERA M. SCHYMOs, Corr. Sec.

Wendell Markham spoke on Canadian silver dollars at the June meeting of **Pico Rivera Coin Club**. Those in attendance learned much about this subject from the speaker who is well versed in the history of both the country and its coins. The display of the month trophy went to Vera Schymos for a display of replicas of ancient coins, including the famed money tree. Formed in the shape of a tree, each coin was fastened to a central stem and snapped off when needed as one breaks a grape from a bunch. Originally the money tree was made of tin and, although used widely in China, it originated in the tiny kingdom of Malacca, near Singapore. Sol Taylor won 1st prize with a display of types of silver coins. At the close of the meeting, Xenia Kreizel served hot apple pie and coffee. Guests are invited to our meetings the 2nd Tuesday monthly at the North Ranchito School in Pico Rivera, Calif.

Those attending the June meeting of **Columbus Numismatic Society**, A.N.A. 4052, enjoyed and profited by a talk on making and judging numismatic exhibits by Miss Mea Cooperider, secretary of the Society. She brought her Japanese collection of coins, paper money, literature, pictures, dolls, fans and silk to the Deshler Cole Hotel and used special lighting effects to emphasize various phases of her talk. She pointed out the following elemental points of the A.N.A. exhibit suggestions. Give careful thought and study to the subject of the display; Choose material carefully; Follow rules faithfully; Enter your exhibit in the classification which fits the material in it; Have a clear understanding of the judging considerations before forming your exhibits. Miss Cooperider noted that methods of judging have varied so much in the past that the A.N.A. set forth its point system in its Club Bulletin of May 1964, prior to the Cleveland convention. It and many other suggestions were published in the October 1964 issue of *The Numismatist*, also. Exhibits are credited with the following maximum number of points: numismatic information conveyed, 35; arrangement and originality, 30; completeness, 15; condition of material, 10; and rarity, 10. Thus a perfect exhibit would be awarded 100 points. An interesting note on her collection was the dating of Japanese coins in terms of the Imperial Eras, the three in modern times being Emperor Mutsuhito of the Meiji Era, 1867-1911;

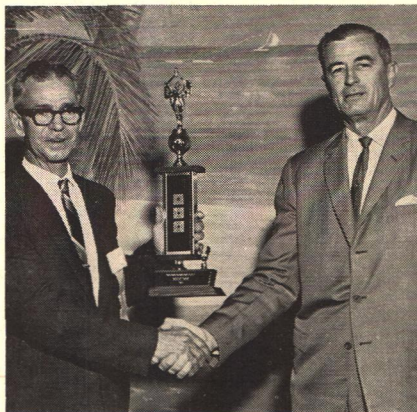

Emperor Yoshihito of the Taisho Era, 1912-1925; and Emperor Hirohito of the Showa Era, 1926 to date. Her exhibit of Japanese coins was quite varied and interesting, and she presented each of us with a pair of chop sticks "to whet our appetites for Japanese numismatics." Other displays were by Ben Allen, Don DeVore, Charles Case, Dave Gander and Steve Lynd. — HARRY MOWERY, Publ. Chm.

With 56 in attendance, the **Lawndale Coin Club**, A.N.A. 34305, held its 73rd meeting on June 20 at the Odd Fellows Rebekah Hall in Hawthorne, Calif. President Miller opened the meeting with a short eulogy to the late Russell Snyder who was a member of our Club at one time. A great numismatist, he had been a member of A.N.A. for 15 years and was associated with numerous other numismatic organizations. After an open discussion about club activities, Exhibit Chairman Gene Calkins explained our exhibit program and urged everyone to take part in it. He then announced the following exhibit award winners: Joseph Rosenberg, 1st with American type coins; Eloise Shields and George Shunburgh tied for 2nd with wheat coins of the world and coins telling the history of Panama's 50 years of independence, resp.; and Bill Sadler, 3rd for National Commemorative Society medals. Ann Hall then conducted a numismatic quiz which surprised some of us at the little we know about our hobby. Since the meeting was held the afternoon of father's day, awards were given to Andy Weathers, the oldest father present, and to Leon Browning as the youngest. Awards were donated by Bill Sadler to whom the Club expressed its thanks. Information about our Club may be obtained by writing to the secretary at P. O. Box 32, Lawndale, Calif. — NORMA L. vulged by the examiner. He stated also that in most cases use of the machine clears innocent parties who were suspected. — MRS. HENRY ENGELMAN, Corr. Sec.

H. J. Wagner was the guest speaker at the July meeting of the **Columbus Numismatic Society**, A.N.A. 4052, at the Deshler-Cole Hotel in downtown Columbus, Ohio. Wagner was in charge of the research project of the Battelle Memorial Institute to determine the most suitable substitute for silver in U. S. coins. He gave us first hand information from his final report to the U. S. Treasury Department, submitted last February. He explained that the drain on silver was due to use in coins and to industrial demands, and illustrated it with graphs. The report gave consideration to the supply and demand for silver and various base metals from the present to the year 2000. The following criteria were used in evaluating various materials as alternatives to our present coinage alloy; availability and price; public acceptability; physical, chemical, conductive and mechanical properties; effect on coin-operated devices; effect on mint operations; and counterfeiting, illegal duplication and slugging potential. Though certain materials are excellent in one respect or another, none can satisfy completely all of the criteria both subjectively and objectively. Among the many metals considered as remotely possible alternatives to silver in coinage were aluminum, chromium, columbium, copper, manganese, nickel, titanium, tungsten, zinc and zirconium. The report finally suggested that the present alloy of 90% silver and 10% copper could be changed to a multilayer composite consisting of a 75% copper and 25% nickel alloy as

the outside layers on an inside core of copper. This so-called "sandwich" metal will leave a thin ring of copper showing around the edge of the new coins. Mike Moriarty, chairman of the Junior Division, was responsible for procuring the speaker, and we were proud to have an active interest taken by the Juniors. Mike and junior members Vikie and Don DeVore provided displays at the meeting. — HARRY A. MOWERY, Publ. Chm.

Most of the countries of the world were represented, and there were many pages of paper money also. Vice President Provenza urged all members to write to their Senators and Representatives in protest of the Bible bill. The program for the evening was a paper on the 1964 Bermuda crown and the Maria Theresa thaler, specimens of both being shown. Our next meeting will be in September. — HUBERT W. CARCABA

A souvenir booklet will be given to each person attending, and there will be valuable door prizes for the lucky ones. No stone has been left unturned to make this a fine show, to which everyone is invited. Come to Hagerstown in the heart of the Cumberland Valley. - GEORGE E. HARSH, Chm.

Anderson and several officers of TNA, headed by President Floyd E. Covill. Plaques of appreciation were presented to these two presidents at the awards breakfast which was handled by Club President A. L. Smith. In the bourse there were 30 dealers representing Texas, Louisiana and New Mexico. Exhibit awards presented at the breakfast included the best of show to William Rust, Sr. of Wichita Falls for his odd and curious money display. Others were as follows: U.S. coins - Marvin K. Honorable George L. Ingalls, minority leader in the New York legislature, will be the official representative of Broome County. The principal speaker at the

Saturday afternoon educational program will be Donald P. Taxay, curator of the Chase Manhattan Bank Money Museum, who will be making his first appearance in an upstate numismatic gathering. John J. Pittman will be on hand for the program, also. The first session of an auction of over 500 lots will be held in the evening, with Club Treasurer Stuart Ludy in charge. In addition to the special museum of monies exhibit, there will be competitive exhibits in 7 classes with trophies for the winners plus a best of show. The second auction session will take place Sunday afternoon, when the Kadiddle Village Band will hold forth in the Hotel lobby. This repeat feature of last year's show has been arranged in answer to a number of requests. The usual coin clinic will be held for those who want information about coins, the hobby and books and periodicals relating to it. General Chairman Hunter may be contacted at 67 Broome St., Binghamton, N.Y. 13903 for further information. — FRED G. HUNTER, Pres.

The **Southern Hub Coin Club, A.N.A.** 29238, celebrated its 8th anniversary at the July 11 meeting, with 72 in attendance. The new by-laws were approved unanimously, including the provision that youngsters under 17 years of age may become members. Ricky Calkins, 8 year old son of Gene and Norma Calkins, was the first to take advantage of the new provision. President Hall thanked C. A. Dunbar and Nathan Eisenberg for their donations of numismatic books and periodicals to the Club. Speaker of the evening George Baude of Van Nuys covered the subject of Confederate notes very nicely, giving us a brief history of the why, how, where and by whom they were produced. We viewed with pleasure and interest the sizeable display of these notes which George brought along. First place exhibit trophy went to B. B. Crow for four cases of coins of the world, Minerva Axelrod winning the second place ribbon with Austrian and German notgeld. — ANN M. HALL, Publ. Chm.

Arrangements have been made for this year's Lancaster show by the **Red Rose Coin Club, A.N.A.** 35575, on Nov. 13-14. The Club is pleased to say that the new and modern facilities of the Holiday Motor Inn, on Route 501 in the Pennsylvania Dutch country, will be used this year. In addition to a 30 table bourse and fine exhibits, the Club will provide door prizes and souvenirs, with admission being free as usual. — SAMUEL K. NOLT

Judge Sawicki and Alfred Schafer received **A.N.A.** educational award certificates for talks at previous meetings at the July 14 (525th) meeting of **Western Reserve Numismatic Club, A.N.A.** LM 32. Those gathered at the Cleveland Statler Hilton heard a very thought-provoking talk by Patricia Ferko, whose subject

was "A Novice Looks at Numismatics." She started collecting five years ago when given a Whitman folder for cents and was told it would be worth \$100 in a year if filled. At the end of the year she was still missing 7 coins but didn't give up. She started reading coin publications and books, and branched out into higher denominations. Looking through rolls of nickels while under the hair dryer in a beauty shop, Patricia found a 1950-D and let out a yell that brought the operators running. A visiting boy of 13 years asked so many questions that she couldn't answer that she began to read and study more. Seeing Fred Rosenthal's picture in a paper as president of Western Reserve caused her to visit several clubs and finally join ours. Member Joseph Stein started her on her specialty of animal coins, and she was made publicity director of the 1964 NCW activity. After five years she asks, "Where to now?" Do you take the nasty looks from bank tellers? Do you have to keep your coins in a bank vault to keep thieves from "collecting" them? Do you worry about the Bible bill and others which would cripple the hobby? Her plea to the old timers is to help the novices get ahead numismatically by sharing their knowledge and experience. Patricia's timely talk was enjoyed and, we hope, will be a help to her and others who wonder "Where to now?" Interesting and unusual exhibits were provided by Alfred Schafer, Jerry Price, Joseph Lucas, Edward Jacobs, Ruth Hassel, Larry Freeman and the secretary. — FRED N. HAHLEN, Sec.

The **Essex County Coin Club**, A.N.A. 28780, held its 107th meeting on July 13 at the Crestmont Savings & Loan in Maplewood, N.J. with about 40 in attendance. There was a discussion of bill S. 2012 and similar ones, and some rather strong words came out. It was the feeling that, rather than coin collectors, the coin operated vending machines are much more responsible for the coin shortage. Members who had not written to their representatives in Washington in opposition to the proposed legislation were asked to do so. The floor plan for our Sept. 19 show at the Robert Treat Hotel was approved, and other reports indicated that plans are progressing satisfactorily. — JAMES A. BROWN, Sec.-Treas.

Movies of the New York World's Fair were enjoyed by 56 members and guests at the recent annual meeting of the **Ames Coin Club**, A.N.A. 54523. Refreshments were served in honor of Club Treasurer Elmer Fardol on the occasion of his 80th birthday, with Mrs. Arthur Nelson and Mrs. Robert Schroeder acting as hostesses. Officers reelected to their respective positions were President Robert Schroeder, Treasurer Elmer Fardol, and Secretary Harold B. Clemens. Arthur Nelson was elected the new vice president. Five new members were accepted into the Club. — HAROLD B. CLEMENS, Sec.

The **Mount Vernon Numismatic Society**, A.N.A. 22911, will hold its 7th annual show on Sept. 26 at the Veteran's Memorial Building in Mount Vernon, Ohio. Doors will be open without admission charge from 10 a.m. to 5 p.m. to all activities, including displays and an educational program and forum from opening until 1:30 p.m. — BARBARA V. MAXWELL, Publ. Chm.

The sixty members and guests attending the July 19 meeting of the **Birmingham Coin Club**, A.N.A. 11590, were treated to a particularly fine program by Mrs. Budshon Battle. Her presentation of "Coins and George" was educational and novel in format. Many members contributed by exhibiting items relating to George Washington from their collections which indicated that portraits in use today date back to our early history. All in all, the evening proved to be quite informative and thought provoking. Several members who participated in the July 15-17 **Alabama Numismatic Association** convention in Mobile reported on highlights of it and the effort being made in behalf of John H. Morris' candidacy for the A.N.A. board. Through the great effort made by J. G. B. Fletcher, our Club was able to file papers of incorporation by July 20. Mr. Watkins remarked on a few of the "What's New in Numismatics" happenings, and members were encouraged to attend the A.N.A. convention in Houston. — MARTHA POSTERO

The July 6 meeting of **Western Pennsylvania Numismatic Society**, A.N.A. LM 39, was held in Carnegie Museum in Pittsburgh with 16 members present. President James Sloss, Vice President Glenn Mooney and Ray Byrne urged members to voice their objections to the Bible bill which, if enacted, would be the death knell to many coin collectors. Literature from the United Coin Collectors Alliance was distributed and discussed. Dr. J. O. Sloss gave the scheduled talk on "Early American Gold," illustrated with color slides of representative pieces. His excellent slides demonstrated the thoroughness with which a numismatic talk can be presented while the actual material is safely in a bank vault. Furthermore, this method of showing details and die variations is superior to having the actual coins for viewing by a number of persons. Exhibits were by Ray Byrne, Dr. W. Hollander, E. Oschman, J. A. Nelson, G. Otterman, W. Hunter and Glenn Mooney. — JOHN C. NELSON, Publ.

The July 7 meeting of **Brooklyn Coin Club**, A.N.A. 4242, was saddened by the announcement that Treasurer Irving Vengrove had passed away on June 23. Irving had been confined in a sanitarium for some time suffering from a heart ailment. An ardent numismatist and philatelist for many years (he joined the A.N.A. in 1936), he exemplified the finest characteristics as a hobbyist, in his

professional orbit, and as a great human being. At President Eddie Schuman's request, the members stood for a minute's meditation in memory of Irving R. Vengrove. We were pleased to welcome Max Kaplan back from the recent IAPN convention in Paris and to hear him report that the main theme of the meeting was creation of better relationships between dealers and collectors. Also there was discussion in depth regarding successful prevention and detection of counterfeits, with many members expressing amazement at the extent of forgeries in circulation. President Schuman discussed the temporary shelving of the Bible bill, but noted that the battle is only half won. The UCCA was commended for its valiant efforts in combatting passage of the bill. Secretary Vlotkoffsky had sent a letter to Senator Frank J. Lausche who was instrumental in defeating its passage, expressing the gratitude of all numismatists for his aid. James A. Brown, who was a member of this Club for many years and served as secretary several years, was a visitor at this meeting. He regaled us with his "Ten Commandments of Coin Collecting," a droll critique of some present day dealers and collectors. — MAX VLOTKOFFSKY, Sec.

The June 2 meeting of **Halifax Coin Club**, A.N.A. 36324, was held in temporary quarters in the Nova Scotian Hotel with only 30 members present. President C. F. Longley requested a minute of standing silence in respect to Rev. E. Morris who died very recently. Rev. Morris was a charter member of our club, its oldest member and one who

had taken an active part in its affairs until he moved recently to Middleton to be with his daughter. He served as editor during the Club's formative years and was instrumental in keeping it active and growing. Numismatics and philately have lost a grand old gentleman. An A.N.A. educational award certificate was presented to A. Mitchell MacDonald for his previous talk on Nova Scotian medals. Due to projector trouble, we were unable to view the A.N.A. slides of "Women on Coins and Medals" but hope to get the set at a later date. Some other slides of gold coins and paper money were loaned by E. Black and shown in a projector that F. Allen had. Editor Boltz conducted a numismatic game called "Name the Coin." He was moderator of a panel consisting of President Longley, F. Allen and Mitchell MacDonald. Flash cards were shown to the audience naming a numismatic item and the panelists were required to question the moderator until they could name the item. In all but one case the answer was given in less than half the three minutes time allowed. It proved to be a very entertaining program. — NELSON C. BOLTZ, Editor

September 19 is the date of the 4th annual show of **Markle Coin Club**, A.N.A. 45776, to be held at the National Guard Armory in Huntington, Ind. A bourse of 25 dealers and many fine exhibits are expected. The public is being invited and refreshments will be served gratis. Bourse chairman is Steve Shoptaw, 338 Court St., Huntington, Ind. — THOMAS R. KARNs, Sec.

## ORIGINAL CHAPMAN BID AND ACCOUNT SALE BOOKS

Unique S. H. & H. Chapman and Henry Chapman bid books of many of the most famous auction sales. The Chapmans, from 1878 and Henry Chapman in later years, spanning over half a century of numismatic history, were commissioned to catalogue and sell collections for such famous American numismatists as Bement, Jackman, Jenks, Stickney, Parsons, Bushnell, Zabriskie, etc.

Their auction catalogues, the first of their type in American Numismatics, are seeped with detailed descriptions and numismatic lore.

Fabulous coins, medals, tokens; colonial, state, U. S. rarities; silver and gold; paper, patterns, trial pieces; great foreign collections; significant Confederate pieces . . . . virtually covering the entire numismatic field . . .

These internationally distinguished numismatists were among the giants of their era. To them were entrusted such rarities as the Brasheer Dubloon; 1804 dollars . . . it would take volumes to list them and Chapman's careful detailed descriptions and pedigrees.

Many of these unique private records show code names and names of successful bidders with prices paid. The list of buyers reads like a "Who's Who" of numismatics: Vergil Brand, Elder, Betz, Parmelee, Parsons, Warner, Low, Cogan, Clay, Lemak, Jackman, Jenks, Scott, Cleany, Wright, Haines, Dew, Smith, Garrett, Maris, Leeds, Wilcox, Clark, Comstock, Nicols, Heath, Wormser, Ten-Eyke, Fossard, Zimmerman, Rice, Dunham, Sears, Hazeltine, Ryder, Clarke, Stickney, Zabriski . . . to name only a handful!

To numismatic history and in authentically tracing the pedigree of many famous coins of the world, these bid books are of tremendous significance.

This collection covers their first sales in 1878 through many of their sales to 1932. There are a total of 82 personal bid and private account sale books.

## RARE HAWAIIAN COINS

Low mintage. Listed page 248 of the Red Book. Many melted, especially dollars of which over 400,000 were melted, according to the records at San Francisco. Many additional coins of each denomination were lost to the sea during a revolt by the people against the government in 1893. Few were left. In fact — during my visit to Hawaii last November, I searched the Islands to locate Hawaiian coins and discovered to my amazement that few people living on the Islands even knew that these coins existed. Most inhabitants were amazed when I showed them coins struck by the U. S. Mint for circulation in Hawaii. They are not only no longer in circulation, but few Hawaiians realize that at one time they had their own coinage. (Only state with its own coinage.) Check your Red Book — Excellent investment potential.

In **STERLING COMMENTARY**, K. E. Bressett comments upon the recently-discovered group of misstruck British coins. Several of these Royal Mint Errors are illustrated for the first time.

In **THE BILLION SOUS MARQUES OF CANADA**, Walter Breen begins his detailed, extensively illustrated catalog of date and mint varieties in these issues of the French Regime in Canada.

In **A CHECKLIST OF PHILIPPINE GUERRILLA CURRENCY**, Neil Shafer crowns months of research with a Journal first — a lengthy listing of these important emergency issues.

Also in the September Journal: Robert C. Willey's survey of **THE COINAGE OF NEWFOUNDLAND**, Col. J. G. Cornett's views of **SIAMESE COINAGE VALUES**, Richard D. Kenney's classic work on **EARLY AMERICAN MEDALISTS AND DIE-SINKERS**, and more of the very best in numismatic literature.

# MODERN EUROPEAN COINS

by Robert P. Harris

A major breakthrough for collectors of world coins! Coins of the nations of continental Europe and their colonies, plus the Republic of Ireland, are fully cataloged by date and mint. Mintage figures are supplied where available. Realistic valuations are included for all listings. The entire volume is cross-referenced with Yeoman's *Catalog of Modern World Coins*. Armed with *Modern European Coins*, collectors may quickly determine the precise rarity and value of any coin from 1850 to date. Hard cover.

## ARGENTEUS

The new silverpiece called "Argenteus" pleads for the unity of the Free World under the leadership of the United States of America. Every collector of modern silver coins should acquire these most interesting pieces. The issue is limited.

The Argenteus is coined of pure silver in Munich, a capital of art in Europe. The reverse is always the same and bears a six-pointed Cross of lilies as a sign of world-unity. The inscription is in Latin and means: For the Prosperity of the World.

From left to right: Maria Theresia, Empress of the Holy Roman Empire — Eternal Germany, Uta of Naumburg — Th. Heuss, First President of the Federal Rep. of Germany — C. Adenauer, First Chancellor of the Federal Rep. of Germany — Reverse (I and III).

**Shown in original size! Brilliant proof! Silver content 999/1000, as pure as possible!**

## Optical Comparators, Coins and YOU

One of our main concerns is to ensure that the coin you buy is the one you think it is. Hence the specially designed Optical Comparator that is part of our coin identification laboratory. It is the only one in North America. There are four others in the world, not available to the public except in court cases, and they are owned by three European governments.

A highly sensitive precision instrument, it not only magnifies to a rare degree of sharpness, but also enables accurate comparison with known standards. We use it to authenticate rare coins. The Optical Comparator is one of the many facilities we maintain as a service to our customers.

## CANADA SILVER DOLLARS

Still remain the King of Canadian coinage and with the exception of a few dates, prices continue to rise due to the ever increasing demands of the collector and the fact that there are just not enough to go around. There are no huge hoards available and certainly no group has enough of any one date (last three years excepted) to materially affect the market.

This definitely places the Canadian silver dollar in the Non-Speculative class and in one of sound Numismatic value.

Ca. 500-480 B.C. Thick flan Italic stater.

Tripod, beside which, crane. Rv. Incuse. F-VF ..... 35.00

Croton, in Calabria, Italy, was noted in the 6th century B.C. for its Olympic victories (hence the tripod) and as the home of Pythagoras, philosopher, mathematician, and astronomer, who first advanced the theory that the sun revolved on an axis, thus anticipating the theory of Copernicus. He is supposed also to have invented the incuse coinage and possibly designed the first coins of Croton. The tripod, the emblem of the Pythian Apollo, with its three feet, became the symbol of the doctrines of the school of Pythagoras. The crane, the bird of passage, was the symbol of the all-seeing eye of the God of Light.

### COOL EVENINGS ARE COMING!

If you have been enjoying the "summer sunshine" now is the time to dust off your collection, and, if you collect MODERN FOREIGN COINS, to see what you have missed during the summer months.

There is no better way than to write for my price list (a new one just ready) and get caught up on the new issues, and perhaps even fill in some gaps in your older collection. This price list is free for the asking — why not write for it now, and start the fall season right?

Dealers: A wholesale list is available to dealers who write for it on their letterhead.

Collectors: Put some fun back in your collecting. Buy what appeals to you, and don't watch the trends too closely. You will enjoy it more.
